Dear Dwight:

Congratulations on your "special word of commendation." You're deserving of much more recognition than you'll probably ever get, so it was quite heartening to see you get the button on the LA TIMES review! Yeah!

The cast continues to do well by you; and the audience loves it. They wouldn't stop clapping after Alberta on opening night. And they kept up their applause as long as they could after the other numbers, too.

Hope you're continuing to do well, and that you'll get another trip to San Diego sometime soon.

Best,

Mark Hofflund
